

10 POINT TIEBREAK in lieu of a 3rd SET

To help teams and facilities comply with governmental orders limiting gathering numbers, and in an effort to reduce the time spent waiting to take the court, we will temporarily change our format regarding 3rd sets:

A 10-point tiebreak will be mandatory in lieu of 3rd sets during the 2020 regular season in all fall leagues.

- Before the start of the tiebreak, there may be a 2-minute break.
- The next team in serving rotation will serve first in the tiebreak.
- Each team may decide its serving order, just like for a new set.
- The first person serves 1 point from the deuce side.
- The second person serves 2 points, starting from the ad side.
- At the conclusion of 6 points the pairs switch ends of the court, and every 6 points after that time. (This is not the USTA Coman tiebreak.)
- The first pair to reach 10 and be ahead by 2 will win the tiebreak and the point for their team.
- Play is continuous throughout the tiebreak.
- The tiebreak is to be recorded as 1 for the winner and 0 for the loser in the place of 3rd set scores. i.e., 6-2, 5-7, 1-0
